

# Welcome to Cirrus – delivering the cloud through Riven Associates

Enjoy cost effective, flexible, easily managed Microsoft cloud products.

## What can you have?

### Full Office 365 suite of products:

- Hosted Exchange email
- Suitable for PC and Mac plus mobile devices
- Fully installable versions of Microsoft Office
- Additional functionality such as Skype for Business and email archiving, plus lots more
- Fully managed email migration process

### Azure - the Microsoft hosted cloud platform - perfect for managing and delivering IT throughout your business:

- Run your servers in the cloud, rather than on site - offering you flexibility without the cost of ongoing hardware charges and maintenance
- Manage SQL databases and share across the user base
- Run backups to protect your data
- Build and deliver apps
- Host your website or offer this service to your clients
- Fully hosted desktop solution for a monthly fee, with no hardware or software to maintain.

### Enterprise Mobility Suite (EMS):

- Set up secure bring your own device (BYOD) for the business, controlling how users access your network and what they do
- Manage all users' accounts - ensuring anti-virus software is kept up to date, and updates are maintained across the business

Continued ...

- Secure your business and your data - set up individual user access controls

- Host your website or offer this service to your clients
- Fully hosted desktop solution for a monthly fee, with no hardware or software to maintain.

## What else do you need to know?

As this is all part of the Microsoft suite of products everything works in harmony with each other - offering you a seamless IT experience.

Not only that, but everything is scalable, so you can add more users, additional services, and customise the products as you need to.

You choose what services you want, and it is all billed in one convenient monthly invoice.

From initial discussions, so we can design exactly what you need for your business, through to full implementation and ongoing support, you can rely on us. We are a long standing, fully approved Microsoft partner dedicated to delivering the very best for all of our customers.

We don't believe in making companies a slave to their IT - it should be there to allow you to run your business effectively.
