WESTCOAST CLOUD VOICE QUOTATION

Enable your business with a cloud
communications solution

Westcoast Cloud Voice is an all-in-one unified communications package that offers your business everything it needs to communicate and collaborate better.

SIMPLE

Easy to switch to, get set-up with and allows you to easily control this powerful business phone system.

RELIABLE

HD call quality, with auto-failover capability if you suffer a local broadband outage. Service delivered across multiple data centres.

REMOTE

Our VoIP phones work over any good-quality broadband connection. Use mobile apps to make and receive landline calls on your smartphone.

SCALABLE

Get a system that has no limit on the number of users. A system that grows with your business.

FLEXIBLE

No large upfront payment. Pay a low monthly fee. Service isn't tied to any physical location.

ONE PROVIDER

Gain unrivalled customer support across service, software and hardware – and manage one bill for every site, feature, user and device.
