

IF THERE'S ONE THING THAT NEEDS TO BE SIMPLE, IT'S YOUR BILL

Tons of insight. Ridiculously simple to understand.

Your customers will scale their cloud use up and down. So knowing who is using what and for how long means you can charge them accurately. To make sure you've got everything to do that, we've made our bills easy to understand and full of the information you're going to need.

Need a chat?

Have a read and if you have any questions – or would like a run through from one of the team – just contact us at billing@westcoastcloud.co.uk or on +44 (0) 118 2080 237.

BUT BEFORE WE BEGIN...

When you add a new licence, you'll initially see two charges for it. The month-in-advance charge and a pro-rata charge. The latter is calculated depending on what day of the month a licence went live.

Here's an example.

- + You add five Microsoft 365 Business Standard licences on 6 September and each one costs £8.29 per month.
- ÷ As there's 30 days in September, we would pro-rata these licences down to 25 days. That brings each one in at £6.91 for that first month.
- × We then multiply that £6.91 by the five licences. So you would see a line for £34.55 in your bill, in addition to the month-in-advance charges.

THE WESTCOAST CLOUD BILLING LOWDOWN

So the right people in your team get to see the figures immediately, you can request your monthly bill to be automatically sent to as many people you want.

Each bill comes with an overall monthly spend summary, and then breaks that down into per-user totals and also the SKUs that each individual is using. You'll have total visibility of quantities and the dates ordered.

You'll get separate bills for Azure, Microsoft 365, Dynamics and Attached Services. Each of them give you the same breakdowns as above.

We'll give you your bill as a PDF, plus as two Excel files. One of those comes as a CSV (which you can customise), the other shows each page of the bill on a separate tab. Why do we do this? It's so you can analyse what's being spent in a way that suits you.

We offer every partner 30-day terms from end of month, collect using a direct debit, plus can integrate with ConnectWise and Autotask.
