

HOW TO USE OUR DYNAMICS DIAGNOSTIC TOOL

Now including Power Apps

Looking to advise customers on the right Dynamics solution for their needs? Check out our [Dynamics Diagnostic Tool](#).

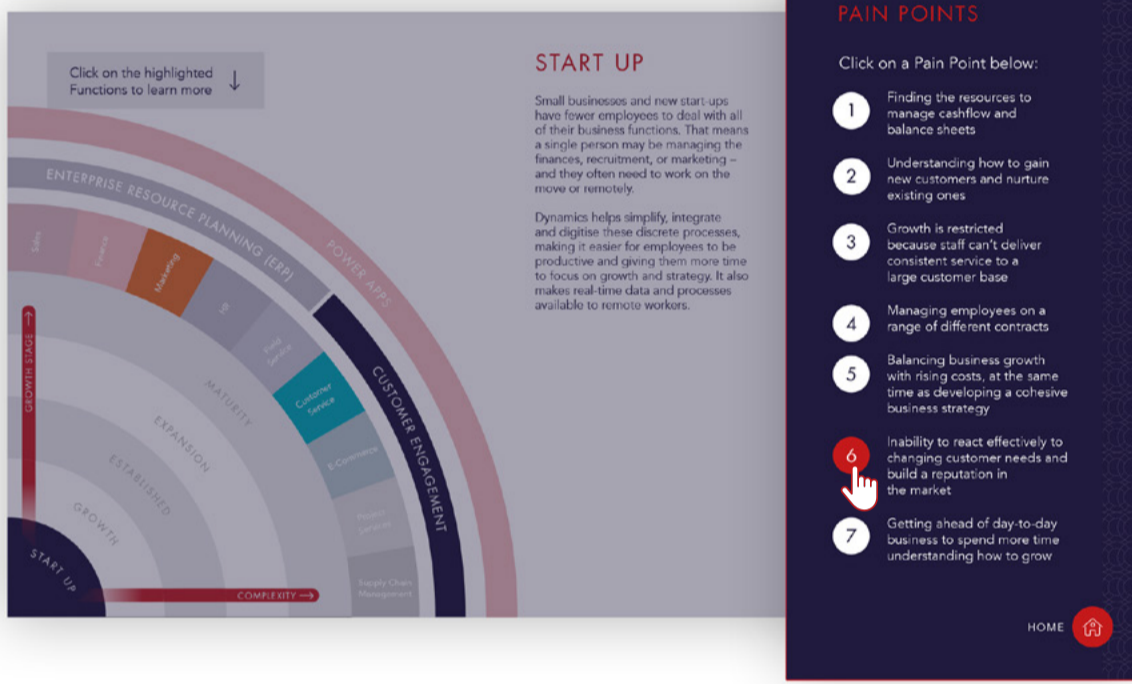

It's the easy way to check which Dynamics capabilities are the best fit for their growth stage, business function and pain points.

And it now covers all Power Platform solutions too.

Here's how it works:

STEP 1

Select the growth stage of your customer

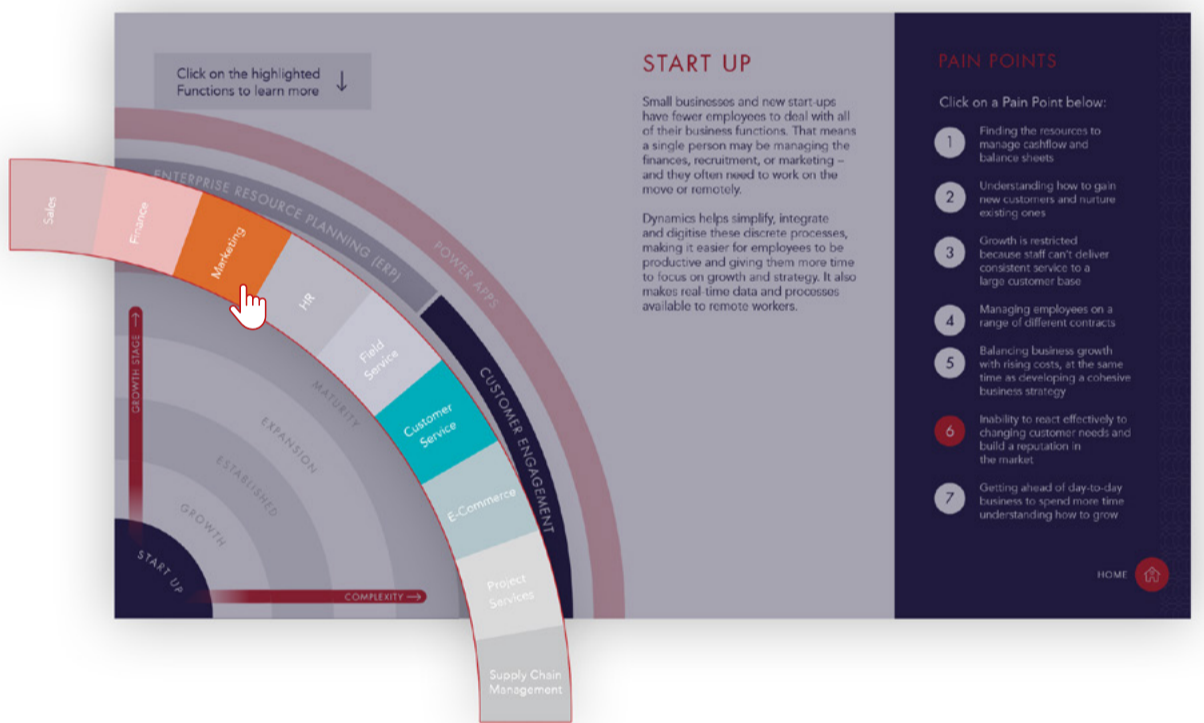

STEP 2

Pick a pain point they're facing

STEP 3

Choose a business function

STEP 4

Get relevant advice and insight

Watch a quick walkthrough of the tool with Liam O'Brien, Head of Dynamics 365, UK & Ireland
