Norton™ Small Business

For PCs, Macs, and mobile devices

24/7 triple-lock cybersecurity for your team

Let us help you protect your business, wherever you are. Feel confident that your day-to-day online activities, employees' devices, and customer data are getting the protection they need.

Protect your business like a pro without having an IT pro
You don't need an IT specialist or cybersecurity knowledge to use Norton Small Business. It's easy to install and runs in the background on Windows, Mac, Android, and iOS — allowing you to focus on your business.

Reduce security risks related to your employees' online activities
No company is too small to be a target of cybercriminals. Help secure your business with robust security and equip your employees with tools to give them the freedom to work remotely, even on mobile devices.

Keep your business PCs performing at their best for longer[1]
Computers lose performance over time unless they're well-maintained. Automated cleaning and optimization helps keep your Windows PCs running at peak efficiency for better performance.[2]

Disaster-proof your business-critical data
Data loss due to hardware failure or ransomware attacks can be devastating. Using an antivirus and keeping three separate backups of your data is the best practice to avoid that. Norton Small Business allows you to have an additional backup in our cloud and recover important files when needed.[2]

Boost your Cyber Safety *(for Norton Small Business Premium only)*
Reinforce your protection against driver vulnerabilities with Driver Updater[1] and bolster online security and privacy with a VPN, especially when on public Wi-Fi.

Norton™ Small Business

		Norton Small Business	Norton Small Business Premium
Device Security	Our antivirus helps protect your devices from viruses, malware, spyware, and ransomware in real time, 24/7. Use Firewall on your computers to help block unauthorized network traffic.	●	●
Cloud Backup	Help prevent the loss of business data due to ransomware, PC theft or hard drive failures by storing copies of files and folders in shared cloud storage[1]	250GB	500GB
Private Browser	A web browser that helps your team stay safer from cybercriminals and scammers during day-to-day online tasks[3] – all in a familiar design.	●	●
Software Updater	Help patch security vulnerabilities exploited by cybercriminals by keeping your programs up-to-date[1]	●	●
Utilities Ultimate	Cleans out junk, removes unneeded apps and data, and helps get your Windows PCs running smoothly again.	●	●
Password Manager	Let each user create, store, and manage their passwords, credit card information, and other credentials more securely in a personal, encrypted, online vault.	●	●
Dark Web Monitoring[§]	Add contacts for a total of five key people in your company and get notifications if their sensitive information is detected on the dark web, enabling you to stay vigilant and take necessary actions to help prevent misuse.	●	●
24/7 Business Support	Get 24/7 business support when you need it the most from our highly trained technical team[4].	●	●
Secure VPN	Access online work apps and websites more safely when connecting to Wi-Fi at home or on-the-go with the reassurance of bank-grade encryption.		●
Driver Updater	Help keep drivers[1,2] on your Windows PCs up to date and safer by downloading from a database of more than 60 million malware-free drivers.		●

System Requirements

Norton Small Business supports Windows™ PC, Mac®, Android™ and iOS devices.

Not all features are available on all devices or operating systems.

For detailed system requirements and latest features, visit Norton.com/sysreq

1 Utilities Ultimate, Driver Updater, and Cloud Backup features are only available on Windows (excluding Windows in S mode and Windows running on ARM processor).
2 Requires your device to have an Internet/data plan and be turned on.
3 Private Browser is only available on Windows (excluding Windows in S mode and Windows running on ARM processor) and Mac.
§ Dark Web Monitoring is not available in all countries. Monitored information varies based on country of residence or choice of plan. It defaults to monitor your email address and begins immediately. Sign in to your account to enter more information for monitoring.
4 24/7 Support is available in English only. See https://www.norton.com/globalsupport for more information.
